

Localization Markers

Localizers™ CT skin markers

Reduce potential rescans caused by skin marker artifact with Localizers.

Specifically calibrated for diagnostic CT, Localizers provide a bright, artifact-free image for precisely identifying an area of interest.

Localizers™

REF 210 QTY 40/box

- 2.3mm low-density pellet
- ideal for identifying soft tissue masses on the neck

Localizers™

REF 211 QTY 40/box

- 4.0mm low-density pellet
- ideal for identifying areas of interest on abdominal cases or with larger patients

Localizers...

- image brightly
- no obscuring artifact
- clean image & communication
